Electronic Payment Processing is fast becoming a necessity in today's financial market. At Vecmar Financial Solutions, we've developed a check scanner fulfillment program to help you provide fast and efficient ordering and delivery of check scanners to your customers or branch offices. Vecmar has partnered with NCR to market and distribute the complete line up of the NCR TS Series Digital Check Scanners. Visit www.ncrcheckscan.com today to find out how your company can benefit from this program.

Count on Vecmar Financial Solutions Fulfillment Service for your Check Scanner Distribution Needs.

Do you have a large number of branches that need to order check scanners and supplies? Vecmar can create a customized, password protected web portal for large volume customers to more efficiently provide equipment and supplies for different office or branch locations.

Our fulfillment service includes the construction of a dedicated, password protected website which is developed with a customized look and feel to correspond with your corporate branding. The custom site can be assigned a unique URL, with a secure password-protected shopping cart. This password protected solution offers flexible pricing and secure online ordering for your branches.

Orders are processed quickly and efficiently and the most popular NCR Check scanners can ship same day. When the order is shipped, UPS tracking numbers are placed in the customer's account record and order status can be viewed at any time.

Benefits of Vecmar Financial Solutions Check Scanner Fulfillment Program

- Secure, password protected website for ordering 24/7
- Email order confirmation with online order tracking
- Support and maintenance available with a toll-free customer support line
- Orders shipped same day if placed by 5:00 pm Eastern Standard Time

NCR is Your Best Choice!

- For teller, bank office, regional or central image item processing, NCR offers a full suite of transports, which meet any volume requirements or processing environment.
- NCR products are supported by Wise IP, which offers superior IQA and operator interface.
- Vecmar Financial Solutions has been an authorized distributor of NCR equipment for more than a decade. We are confident in the quality of our NCR products, and we offer a full line of NCR computer equipment in addition to our NCR Payment Processing Solutions.

TellerScan TS 215

The TS 215 is a high-quality, low cost, single-feed check scanner that is perfect for small volume. Features an ergonomic design with reliable, quiet single-pass transport. The TS 215 provides high quality images for fast reliable clearing. And with API and remote support, integration of the TS 215 into your network is simple.

TellerScan TS 230-65 and TS 230-100

The TS 230-65 and 230-100 provide enhanced, high-speed, reliable scanning for deposit automation and corporate remote deposit applications. Both models feature a continuous feeder and high-duty cycles from 65 to 100 items/minute. With their ergonomic design, TS-230 check scanners are the industry leader in image quality for highest CAR, IQA, and ICR rates. These models also feature upstream endorsement facilitating Check 21 image exchange.

TellerScan TS 4120

Quiet operation is ideal for back office production scanning – with speeds between 100-120 checks per minute. The 4120 features plug and play setup and can be updated remotely over the network. The TS 4120 provides sharp, easy to read images that support Check 21 Image Quality and Usability (IQA & U) standards. TS 4120 delivers the highest accuracy read rate for countertop scanners in the industry today.

The TellerScan Series of NCR Check scanners feature the most advanced design for distributed check capture on the market today. Designed for small and medium volume applications, the NCR TS Series digital check scanners create high quality images quickly and reliably. The small footprint of these models allow them to fit anywhere and the quiet operation of the TS series does not distract from customer service or office activities, making them ideal for all types of check scanning activities.

Check 21 Ready

NCR check scanners feature programmable upstream endorsement for Check 21 image exchange.

The programmable inkjet endorser prints downloaded endorsements (dates, sequential numbers, logos, etc.) on the back of the checks before scanning.

The endorser's crisp legible endorsement, captured with the image of the check, is ideal for Check 21 image exchange.

Visit the NCR Check Scanning Solutions Website at www.ncrcheckscan.com, where you can get more information, place your order, or view the status of your order at anytime.
